

design, manufacture and marketing of industrial equipment

Storage Management and Transport/ Conveyor Systems

from Concept to Implementation

- consulting
- design engineering
- construction
 - of simple
 - to fully automated
 - distribution systems
 - storage management systems
 - conveyor systems

Gorenje Indop has gathered extensive knowledge and experience in relation to design, engineering and manufacture of conveyor systems, automated storage management systems, industrial production lines etc. We have implemented numerous projects at Gorenje, in Slovenia as well as abroad. Should you be in the market for such systems, our expertise and engineers can become your way to **fIND OPTimal** solutions.

Business areas

- ⇒ consulting, studies and conceptual design projects
- ⇒ design and engineering (mechanical, electrical and software)
- ⇒ project management and implementation (fabrication, assembly, testing and commissioning)
- ⇒ customer (user) training
- ⇒ service and maintenance
